

**METAL
LETTERS
INDIA**

The Channel letter Company

Create
an impactful

Impression with Digital Signs

Channel Letters are a Perfect Solution for Large Graphics or Letters where casting patterns are cost prohibitive. With the State of the Art Manufacturing Techniques along with Superior Craftsmanship Combine, We at Metal Letters make the Industry's Finest Channel Letters.

About us

Metal Letters India

Genuine Quality - On Time Delivery - Reasonable Pricing

We are the first company in South India to start in 2013 with the idea of using CNC machines to automate the manufacturing process of a wide range of Channel Letters. This ensures consistent quality and allows for larger production capabilities. By 2020 and 2022, we have established a complete in-house infrastructure. Additionally, we have opened new facilities in **Chennai** and **Hyderabad** to meet the market demands more easily.

Mission

Our goal is to be a company that is widely recognized for developing and introducing new concepts in the business of creating channel letters. We strive to provide our customers with cutting-edge solutions that offer both commercial and environmental benefits.

Values, Excellence and Quality

We are deeply passionate about serving people, improving processes, creating exceptional products, and providing excellent service. We set high standards for quality and actively seek out the best talent. Our goal is to constantly enhance our performance and ensure that we deliver the highest level of quality to our clients.

Trust and Integrity

We prioritize integrity and trust in everything we do, as they are crucial for the success of our business. We are dedicated to doing what is right and working with honesty, fairness, transparency, and collaboration.

Innovation

Our organization promotes and supports creativity and innovation. We encourage our employees to think outside the box and come up with original ideas. We provide them with the freedom and flexibility to explore new ways of thinking. By implementing the right processes, we ensure success and innovative solutions for our customers.

**“ Vision
To be a Leading
Manufacturer
of Channel letters
by Supporting
The Sign Makers
in the Journey
of Success ”**

“ Eye catching signs
that stop traffic ”

SUSTAINABILITY

Metal Letters India aims to achieve sustainability for present and future generations through our products, business practices, and the value we provide. We help organizations save on their investment by offering genuine quality products, delivering them on time, at reasonable prices.

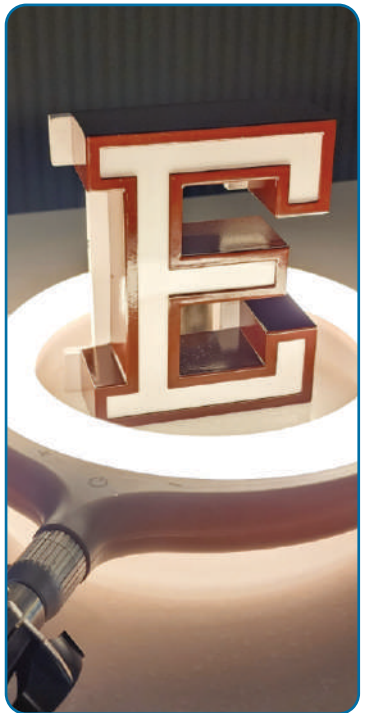

We are equipped with the expertise to provide completely customised products, with our production systems tailored to be based on your order

LED ROPE Available in Different Shades

Prismatic 3D Letters

“ Innovation
at its best ”

Prismatic 3D Letters

- Prismatic Letters have a shape that distinguishes them from standard letters that are available in the market in a wide variety.
- The material used is aluminum of thickness from 6mm to 20mm.
- These Letters are fully truncated.
- In other words, the sides of the letters are sloping from the middle ridge of the letter down to the outer edge of the letter.
- The inclination of the letter sides is often corrected by hand, by stroking them along the entire plane of the letter side.
- As a result the final effect is beautiful.
